

SUPERFAN

**INTERACTIVE
EXPERIENCE**

BRAINSTORM

come up with three different ideas of themes + interactive features

Idea 1: Transformers

Theme

Interactive JS Feature #1

On click Optimus says you must have forgotten my name then his mouth guard appears

Interactive JS Feature #2

On the next click he slashes infernacuss's head and says my name is optimus prime.

Idea 2: call of duty

Theme

Interactive JS Feature #1

*On click you look around then jump
and do a 360*

Interactive JS Feature #2

*On the next click it shoots and you see
the kill marker.*

Idea 3: Lakers

This is a Gif of lebron getting a contact dunk.

Interactive JS Feature #1

This would make lebron dunk on someone

Interactive JS Feature #2

Second click would be the crowd erupting.

EVALUATE

think about the good and bad for each idea then choose one

Pros/Cons of Each Idea:

	Pros	Cons
Idea 1: Transformers	<ol style="list-style-type: none">1. Would be really cool to make2. Nice animations3. Would show a good understanding of JS	<ol style="list-style-type: none">1. Would be really hard to get the correct images2. Hard to get the audio3. Kind of hard to get it to move
Idea 2: Call of Duty	<ol style="list-style-type: none">1. Would be a cool design2. Can be fun to interact with	<ol style="list-style-type: none">1. Hard to find good images2. Hard to code3. Isn't easy to get it to move
Idea 3:Lebron dunking in a game	<ol style="list-style-type: none">1. Would be cool to interact with2. Could have a lot of fun making3. Can show my love for the game	<ol style="list-style-type: none">1. Would be easy to code2. Would be hard to get the crowd audio3. Would be hard to get images in place

JAVASCRIPT

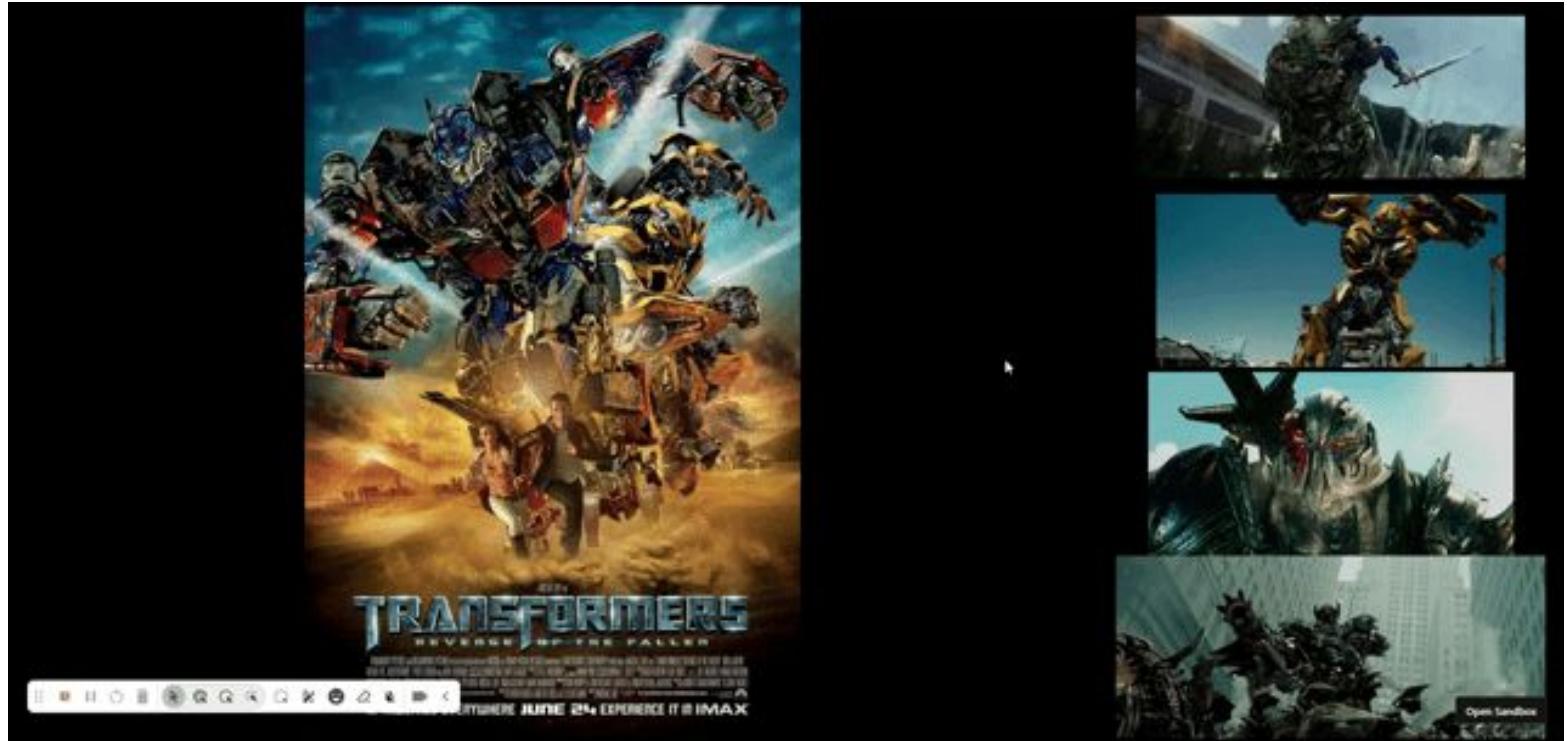

add behavior to your page by inserting two pieces of javascript

```
function firstLogo() {
    document.getElementById("logo").classList.add("cant-see-me");
    document.getElementById("video").src =
        "https://www.youtube.com/embed/DZ9sUTqyYGM?si=iZFi00mjY699uiLw&start=0?&autoplay=1";
    var video = document.getElementById("video");
    video.style.display = "block"; // Change the display style to block
}
//https://www.youtube.com/embed/DZ9sUTqyYGM?si=iZFi00mjY699uiLw&start=5?&autoplay=1

function secondLogo() {
    document.getElementById("logo").classList.add("cant-see-me");
    document.getElementById("video").src =
        "https://www.youtube.com/embed/u0cPWB-HVVo?si=Q6JWz8xiVe8I416p&start=0?&autoplay=1";
    var video = document.getElementById("video");
    video.style.display = "block"; // Change the display style to block
```

ENHANCE UX

add in effects when the user hovers and clicks to make the page intuitive and fun

TEST + ITERATE

get feedback from users then make revisions to your user interface
